LEGISLATIVE COUNSEL'S DIGEST

SB 289, as amended, Hernandez. ~~Medi-Cal: inpatient hospital reimbursement methodology.~~ *Clinical laboratory techniques: training and instruction.*

*Existing law provides for the licensure and regulation of clinical laboratories and various clinical laboratory health care professionals by the State Department of Health Care Services. Existing law authorizes the department to approve schools seeking to provide instruction in clinical laboratory techniques, as specified.*

*This bill would authorize the department to approve specified institutions seeking to provide instruction in clinical laboratory techniques, as specified, including, among others, a California licensed clinical laboratory and an accredited college or university in the United States. The bill would provide that a college or university holding a specified accreditation shall not be required to obtain separate approval for clinical training sites, as defined, if certain requirements are met.*

*The bill would also make technical, nonsubstantive changes to these provisions.*

~~Existing law provides for the Medi-Cal program, which is administered by the State Department of Health Care Services and under which qualified low-income persons receive health care benefits. The Medi-Cal program is, in part, governed and funded by federal Medicaid Program provisions.~~

~~Existing law requires the department, subject to federal approval, to develop and implement a Medi-Cal payment methodology based on diagnosis-related groups that reflects the costs and staffing levels associated with quality of care for patients in all general acute care hospitals, as specified. Existing law requires the department to submit status reports to the Legislature on the implementation of these provisions, and requires the methodology to be implemented on July 1, 2012, or on the date that the Director of Health Care Services executes a specified declaration, whichever is later.~~

~~This bill would require the department to include prescribed information in the status reports submitted to the Legislature, and would make other technical, nonsubstantive changes to these provisions.~~

~~Vote: majority. Appropriation: no. Fiscal committee: yes.  
State-mandated local program: no.~~
